

Party & Play, in a Safe Way

GBL

G, Gina, Geebs, Liquid Ecstasy

We advise you not to use, but if you do:

- Start low, go slow- 0.5ml is enough for a first time user
- Never mix with alcohol due to increased risk of overdose
- Measure doses using a pipette or syringe & mix with water or juice
- Never drink G straight from the bottle
- Set a timer on your phone / watch so you don't redose too quickly
- Use with friends in a safe place
